

Firematic **RALLY 1000**

THE RALLY 1000

The Firematic Rally 1000 combines a compact silhouette with the raw water power of a Hale 1000 pump. It features many options, one of which is an auxiliary motor pump that gives you pump and roll capability. Our fully-engineered and time-proven modifications strengthen the vehicle, providing better protection without having an adverse affect on maneuverability. Strength and agility are a rare combination, but we have brought them together in the Rally 1000.
